DEEMED DISTRIBUTION CONTRACT

PREAMBLE

This contract is about the services which cover connection of your **premises** to our distribution system, and the **energy** supplied to the **premises**. These services are called “**customer connection services**”.

In addition to this contract, we are required to comply with **energy laws** and other consumer laws in our dealings with you.

You also have a separate contract with your **retailer** dealing with the sale of **energy** to the **premises**.

More information about this contract and other matters is on our website <https://www.powercor.com.au/>

1 THE PARTIES

This contract is between:

Powercor Australia Ltd ABN 89 064 651 109 who provides you with **customer connection services** at the **premises** (in this contract referred to as “we”, “our” or “us”); and

You, the **customer** to whom this contract applies (in this contract referred to as “you” or “your”).

2 DEFINITIONS AND INTERPRETATION

The meaning of words which appear in **bold and italics** in this contract is explained in Schedule 1 – Glossary.

3 DO THESE TERMS AND CONDITIONS APPLY TO YOU?

3.1 These are our terms and conditions

This contract sets out the terms and conditions for the **deemed distribution contract** for **customers** under the Electricity Industry Act 2000 (Vic).

3.2 Does this contract apply to you?

This contract applies to you if your **premises** are connected to our distribution system, and you do not have another customer connection contract with us for those **premises**.

3.3 What if I need a new connection?

If you require a new connection or an alteration to your existing connection we will provide you with a connection offer in accordance with the **National Electricity Rules**. That offer will contain terms and conditions relevant to the connection, which will form additional terms and conditions to this contract if you agree to the connection offer.

4 WHAT IS THE TERM OF THIS CONTRACT?

4.1 When does this contract start?

- (a) If your premises are already connected to our distribution system, this contract starts on 10 May 2018 (and replaces any previous deemed electricity distribution contract).
- (b) If you or your retailer request connection or reconnection of your **premises**, this contract starts on the date that you start to take supply of energy at those **premises**.

4.2 When does this contract end?

- (a) This contract ends:
 - (i) if your **retailer** notifies us that the supply of **energy** to the **premises** is to be disconnected (a ‘termination notice’)—subject to paragraph (b), on a date specified by us, of which we will give you at least 5 but no more than 20 **business days** notice even if you have vacated the premises earlier; or

- (ii) if you start receiving supply of **energy** for the **premises** under a different customer connection contract—on the date that contract starts; or
 - (iii) if a different **customer** starts receiving supply of **energy** for the **premises**—on the date the connection contract of that **customer** starts;
 - (iv) if we both agree to a date to end the contract – on the date that is agreed; or
 - (v) 10 **business days** after we disconnect the **premises** under the **energy laws**, if you have not within that period asked your **retailer** to reconnect the **premises** and met the requirements in the **energy laws** for reconnection.
- (b) If your **retailer** gives us a termination notice but you do not give safe and unhindered access to your **premises** to conduct a final meter reading (where relevant), this contract will not end under paragraph (a)(i) until a final meter reading is carried out.
 - (c) Rights and obligations accrued before the end of this contract continue despite the end of this contract.

5 SCOPE OF THIS CONTRACT

5.1 What is covered by this contract?

- (a) Under this contract we agree to provide **customer connection services** at the **premises**. We also agree to meet other obligations set out in this contract and to comply with the **energy laws**.
- (b) Charges for **customer connection services** will be billed under your contract with your **retailer**.

5.2 Sale of energy not covered by this contract

This contract does not cover the sale of **energy** to your **premises**. This is the role of your **retailer**.

5.3 Services and your connection point

- (a) We must provide, install and maintain equipment for the provision of **customer connection services** at your **premises** safely and in accordance with the **energy laws**.
- (b) Our obligations extend up to the **connection point** where **energy** is to be supplied to the **premises** (as defined by us) and not beyond.

5.4 Guaranteed service levels

- (a) We are required under the laws of Victoria to meet certain guaranteed service levels. These requirements are set out in the **Electricity Distribution Code**. If we do not meet a relevant guaranteed service level and you are entitled to a payment under those laws, we will make a payment to you in accordance with the relevant laws.
- (b) Nothing in this contract limits our obligations to make payments in accordance with the applicable **GSL scheme**.

6 YOUR GENERAL OBLIGATIONS

6.1 Full information

You must give us any information we reasonably require for the purposes of this contract. The information must be correct, and you must not mislead or deceive us in relation to any information provided to us.

6.2 Updating information

You must promptly:

- (a) inform your **retailer** or us of any change to your contact details; and
- (b) inform your **retailer** or us of any change that you are aware of that materially affects access to your meter or to other equipment involved in providing **customer connection**

services at the *premises*; and

- (c) inform us of any proposed change that you are aware of in plant or equipment, including metering equipment, or any change to the capacity or operation of connected plant or equipment that may affect the quality, reliability, safety or metering of the supply of *energy* to the *premises* or the *premises* of any other person; and
- (d) inform either your *retailer* or us of any permanent material change to the *energy* load or pattern of usage at the *premises*.

6.3 Your obligation to comply with energy laws and our requirements

You must comply with:

- (a) the *energy laws* relating to the provision of *customer connection services* we provide to your *premises* under this contract;
- (b) our reasonable requirements under the *energy laws*, including our service and installation rules, all applicable Australian Standards and any other technical requirements reasonably required by us. This includes a requirement that you provide and maintain at your *premises* any reasonable or agreed facility required by us to provide *customer connection services* to the *premises*; and
- (c) the obligations imposed on *customers* under the *Electricity Distribution Code* issued by the *ESC* (and if there is any inconsistency between the *Electricity Distribution Code* and this contract, the *Electricity Distribution Code* prevails).

6.4 Life support equipment

- (a) If a person living at your *premises* requires life support equipment, you must register the *premises* with your *retailer* or with us. To register, you will need to give written confirmation from a registered medical practitioner of the requirement for life support equipment at the *premises*.
- (b) You must tell us or your *retailer* if the life support equipment is no longer required at the *premises*.
- (c) If the *premises* are registered as having life support equipment, we must give you:
 - (i) general advice that there may be a planned or unplanned *interruption* to the supply of *energy* to the *premises*; and
 - (ii) at least 4 *business days* notice in writing of any planned *interruptions* to the supply of *energy* to the *premise* (the 4 *business days* to be counted from the date of receipt of the notice set out in clause 15(b)), unless a longer period of notice is requested by the customer; and
 - (iii) information to assist you to prepare a plan of action in case of an unplanned *interruption*; and
 - (iv) an emergency telephone contact number.

6.5 Obligations if you are not an owner

If you cannot meet an obligation relating to your *premises* under this contract because you are not the owner, you will not be in breach of the obligation if you take all reasonable steps to ensure that the owner or other person responsible for the *premises* fulfils the obligation.

6.6 Generators including solar panels

- (a) If you have a generator connected to our distribution system at the *premises*, you must comply with the applicable standards in operating, testing and maintaining the generator when you start to take supply of *energy* under this contract including but not limited to your obligations under the *Electricity Distribution Code*.
- (b) If you no longer want to keep a generator at the *premises* connected to our distribution system, you must apply to us for a connection alteration so that any necessary

alterations to the connection can be made.

- (c) If you want to connect a generator at the premises to our distribution system for the purpose of exporting **energy** (for example, a solar panel), you must apply for a connection service under the **National Electricity Rules**. We will provide you with a copy of the relevant additional terms and conditions at the time when we make our connection offer.
- (d) If you want to increase the capacity of your embedded generator connected to the **premises** or add any energy storage equipment connected to a micro embedded generator, you must comply with the requirements of the **National Electricity Rules** and the terms of our connection offer or connection contract (whichever is applicable) made under the **National Electricity Rules**. This will require you to make an application to us prior to any changes being undertaken. We will be reasonable in our assessment of any application and we will not unreasonably withhold our approval.

6.7 Equipment

- (a) None of the equipment and assets that we install at your **premises**, whether or not they are fixed to the land or any buildings on the land, will become part of the land or **premises** and we may remove them after disconnection of your electricity supply at the **premises**. Your obligations in respect of our equipment and assets will continue after this contract ends.
- (b) Your equipment at the **premises** connected to our distribution system must have a nominal rating within the nominal voltage supply range for the **connection point**.

6.8 Maximum allocated supply capacity

You must ensure that the demand of electricity taken at your **premises** does not exceed the maximum allocated supply capacity. Unless otherwise agreed in writing with us, your maximum allocated supply capacity is the lesser of:

- 40 amperes for customers on SWER lines or customers supplied from single phase substations;
- 63 amperes in aggregate across all phases elsewhere in the distribution network; and
- the rating of the smallest component of the distribution system used solely to supply electricity to your **premises**.

Where we have agreed a higher maximum allocated supply capacity with you, and your maximum demand of energy taken at your premises over any 3 year period is less than 75% of your maximum allocated supply capacity, we may give you written notice of a lower maximum allocated supply capacity that better reflects your actual energy usage and demand.

7 WRONGFUL AND ILLEGAL USE OF ENERGY

7.1 Illegal use of energy or interference

You must not and must take reasonable steps to ensure others do not:

- (a) illegally use **energy** supplied to the **premises**; or
- (b) interfere or allow interference with any of our equipment at the **premises**, except as may be permitted by law; or
- (c) use the **energy** supplied to your **premises** or any energy equipment in a manner that:
 - (i) unreasonably interferes with the connection or supply of **energy** to another **customer**; or
 - (ii) causes damage or interference to any third party; or
- (d) use **customer connection services** provided by us in a way that is not permitted by law or this contract; or
- (e) tamper with, or permit tampering with, any meters or associated equipment.

7.2 Consequences for wrongful or illegal use

If you do not comply with clause 7.1 above, we may, in accordance with the **energy laws** take any or all of the following actions:

- (a) estimate the amount of **energy** obtained wrongfully or illegally and take debt recovery action against you for that amount; and
- (b) undertake (or agree that you undertake) any necessary rectification work at your cost; and
- (c) arrange for the immediate disconnection of the **premises**.

8 OUR LIABILITY

8.1 Quality or reliability of supply

- (a) You acknowledge that:
 - (i) the quality and reliability of your electricity supply is subject to a variety of factors that may be beyond our control, including accidents, emergencies, weather conditions, vandalism, system demand, the technical limitations of the distribution system and the acts of other persons, including at the direction of a **relevant authority**;
 - (ii) we can interrupt or limit the supply of electricity to your **premises** in accordance with the **energy laws**; and
 - (iii) variations in voltage or frequency may cause damage, for example, to appliances or machines connected to the electricity supply.
- (b) You must, if you are a **business customer**, take reasonable precautions to minimise the risk of any loss or damage to your equipment, **premises** or business which may result from poor quality or reliability of supply.

8.2 When we are not liable

- (a) Subject to clause 8.4, no party is liable for any failure to comply with this contract or the **energy laws** if, and to the extent that,
 - (i) that party is relieved from the performance of, or liability in respect of, any of our obligations by the operation of any provision of the **energy laws** including but not limited to sections 119 and 120 of the **National Electricity Law** (and for the avoidance of doubt, nothing in this contract varies the operation of any of the legislative provisions mentioned above); or
 - (ii) the failure to comply arises as a result of the other party's breach of this contract or the **energy laws** or (subject to the other party's compliance with its relevant obligations under the **Electricity Distribution Code**) by a **force majeure event**.
- (b) Subject to clause 8.4, we are not liable for any failure to comply with this contract or the **energy laws** if, and to the extent that, you have not complied with clause 8.1(b).

8.3 Limitation of statutory liability

8.4 Our liability under the Competition and Consumer Act

The *Competition and Consumer Act 2010* and other laws provide consumer guarantees and/or imply certain terms into contracts that cannot be legally excluded. Any liability we have to you under any such guarantee or term is limited to the maximum extent permitted by law, and if the law allows, is limited to:

- (a) in the case of goods, the supply of equivalent goods or paying you the cost of acquiring equivalent goods (at our option); and

- (a) comply with all relevant requirements under the **energy laws**; and
- (b) carry or wear official identification; and
- (c) show the identification if requested.

10 INTERRUPTION TO SUPPLY

10.1 Distributor may interrupt supply

We may interrupt the supply of **energy** to your **premises** where permitted under the **energy laws**, including for a planned **interruption** or where there is an unplanned **interruption** or in accordance with the conditions of any applicable tariff or under a contract with your **retailer**.

10.2 Planned interruptions (maintenance, repair, etc)

- (a) We may make planned **interruptions** to the supply of **energy** to the **premises** under the **energy laws** for the following purposes:
 - (i) for the maintenance, repair or augmentation of the transmission system or the distribution system, including maintenance of metering equipment; or
 - (ii) for the installation of a new connection or a connection alteration to another **customer**.
- (b) If your **energy** supply will be affected by a planned **interruption**, we will give you at least 4 **business days** notice by mail, letterbox drop or other appropriate means.

10.3 Unplanned interruptions

- (a) We may interrupt the supply of **energy** to your **premises**:

- (b) If an unplanned **interruption** is made, we will use our best endeavours to restore **energy** supply to the **premises** as soon as possible.
- (c) We will make information about unplanned **interruptions** (including the nature of any **emergency** and, where reasonably possible, an estimate of when **energy** supply will be restored) available on a 24 hour telephone information service as well as on our website.

10.4 Your right to information about interruptions

- (a) If you request us to do so, we will use our best endeavours to explain:
- (i) an **interruption** to the supply of **energy** to the **premises**; or
 - (ii) a supply of **energy** to the **premises** of a quality in breach of any relevant standards under the **energy laws**.
- (b) If you request an explanation be in writing we must, within 10 **business days** of receiving the request, give you either:
