

# CitiPower works Collingwood Network Upgrade Project

**CitiPower delivers electricity to a 157 kilometre square area across the Melbourne CBD and inner suburbs, and provides power to more than 331,000 customers. We operate the most efficient distribution network in the country.**

Energy demand is growing across Collingwood and Fitzroy, so we're working hard to upgrade our network to keep electricity supplies reliable for everyone. We're building more capacity in the local network to support the exciting growth of vibrant education, residential and commercial developments in the neighbourhood

## What are we doing?

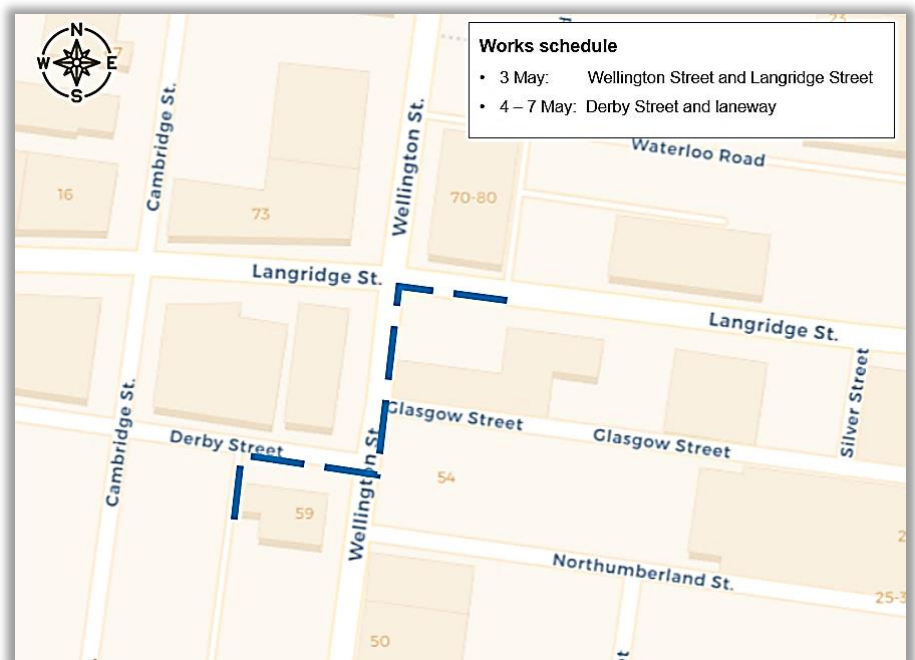

We're preparing to energise new cables and will be returning to the corner of **Wellington Street, Langridge Street** and **Derby Street**.

## When?

Works are scheduled to begin from the corner of Wellington Street and Langridge Street, heading south down Wellington Street and turning west into Derby Street. Works are scheduled to begin on **Monday 3 until Friday 7 May 2021** and will be conducted during our normal working hours between **7am to 4pm**.

## What can I expect?

- Electricity supply will be maintained, there are no planned outages during these works.
- There will be temporary lane closures and our traffic controllers will safely direct vehicles, pedestrians and cyclists around the work area.
- Local access to residential properties and businesses will be maintained at all times.
- Some of this work will be noisy.
- Road reinstatement works will follow shortly after trenching works are complete.
- **Cambridge Street customers:** We're commencing works in the laneway heading north towards Derby Street on Tuesday 4 May until Friday 7 May. We will dedicate car spaces along Derby Street for residents that require access to their property via the laneway. Please contact our Project Lead **Sam Gunnis** at **0457 823 874** for more details.
