

**CitiPower, Powercor and United Energy will offer an optional residential trial network tariff from 1 July 2022 to encourage electricity use in the middle of the day.**

From 1 July 2022 to 30 June 2026 CitiPower, Powercor and United Energy will offer an optional residential Daytime Saver trial tariff with the following structure and indicative rates.

Time band	Fixed (cents/day)	Usage rate (cents/kWh)
10am – 3pm	Same as for other residential tariffs	0.0
4pm – 9pm		16.0
All other times		5.70

Tariff rules:

- Tariff is available to any residential customer with an AMI meter
- Retailer can opt a residential customer in and out of the trial tariff at any time
- Same rates apply every day of the year
- All times are local time
- Customer numbers will be capped at 1% of distribution revenue for each network which is roughly 10,000 CitiPower customers, 17,000 Powercor customers and 14,000 United Energy customers

The daytime saver trial tariff is expected to particularly benefit customers who don't have rooftop solar and can:

- Charge their electric vehicle at home between 10am and 3pm
- Set their pool pump to operate between 10am and 3pm
- Set their air-conditioner to pre-cool their home before 3pm
- Shift some of their appliance usage, such as dishwashers and washing machines, to operate between 10am and 3pm

Tariff codes:

	CitiPower	Powercor	United Energy
